

Govher Sapardurdyeva

605-691-2326 | gs.govher@gmail.com | github:govher-s | Portfolio Web | Brookings, SD

SKILLS

Programming: C, C++, C#, JavaScript, Python, SQL (PostgreSQL)

Software Development: SDLC, Object Oriented Design, Unit Testing, Debugging, Version Control

Tools & Environments: Visual Studio, Unity, React, Git, Docker, Windows/Unix, AutoCAD, Figma, Jupyter Notebook, Google Colab, .NET, Overleaf

AI/ML: Deep Learning (PyTorch/TensorFlow), Supervised & Semi-Supervised Learning

Languages: English (Fluent), Russian (Native), Turkmen (Native), Turkish (Fluent), German (Elementary)

EDUCATION

South Dakota State University

Jan. 2023 – May 2027 (Expected)

Bachelor of Science in Computer Science | GPA: 3.0

Brookings, SD

Turkmenbashi Technical School

2017 – 2018

Associate Degree in Information Technology | GPA: 4.0

Turkmenbashi, Turkmenistan

TECHNICAL PROJECT EXPERIENCE

Radar Algorithm for Precision Sprayer Boom Height Control

Aug. 2026 – May 2027 (In progress)

Senior Design Project for CNH (Raven)

- Building an FFT-based algorithm to convert radar data into real time canopy and ground distance measurements for automated sprayer boom control
- Optimizing the algorithm for embedded constraints and C portability

JaGuard – Cloud-Based Breach Monitoring Platform

Sept. 2025 – May 2026

Cybersecurity Breach Monitoring Platform

- Conceptualized and branded the product, including logo, naming, and overall platform theme
- Developed the frontend using React, Vite, and JavaScript, building dashboards for monitoring data

manGO – Campus Scooter and Bike Rental App

Jan. 2026 – May 2026

Android App for Campus Mobility

- Designed the UI/UX in Figma and Adobe Illustrator, then developed the app using Flutter and Dart

Deep Learning Classification on Ultrasound Imaging

Jan. 2026 – May 2026

Ovarian Condition Classification – Supervised & Semi-Supervised Models

- Preprocessed ultrasound image datasets and built supervised/semi-supervised deep learning models in Python, comparing performance using standard evaluation metrics

Stress and Cognition: A Behavioral Study with Predictive Modeling

June 2026 (In progress)

Chronic Stress, Memory, and Executive Function: A Behavioral-Computational Study

- Designing a human subjects study protocol combining validated cognitive/stress assessments with a plan for ML based analysis of the resulting data

WORK EXPERIENCE

South Dakota State University – Housing and Residential Life

Apr. 2026 – Aug 2026

Housing Program Team Lead

Brookings, SD

- Lead and supervise a team of 6 Housing Program Assistants in supporting residential summer camp operations
- Build and manage staff schedules and coordinate residential logistics across approximately 20–25 camps

South Dakota State University – Resident Assistant

Aug. 2023 – Present

Resident Assistant

Brookings, SD

- Enforce university housing policies and document incidents in confidential reports
- Serve as a primary resource and mentor for residents on personal, academic, and social issues

South Dakota State University – Miller Wellness Center

Mar. 2023 – Present

Esports Desk Attendant

Brookings, SD

- *Employee of the Month (March 2026)*
- Monitor and maintain esports lab equipment, including gaming PCs, and consoles
- Troubleshoot hardware, software, and network connectivity issues in real time

Inros Lackner & Gap Construction and Investment Ltd

Oct. 2017 – Mar. 2020

Architect Assistant

Turkmenbashi city, Turkmenistan

- Assisted architects and engineers in updating and revising technical drawings using AutoCAD
- Used Microsoft Excel to track revisions, quantities, and project-related data

Yedi Dost Mebel

Jun. 2022 – Nov. 2022

3D Designer

Turkmenbashi city, Turkmenistan

- Built 3D models of furniture using Blender Software
- Set costs and project fees according to budget using Excel

Walmart Supercenter #1538

Nov. 2024 – Oct. 2025

Health and Beauty Team Associate

Brookings, SD

- Stocked and replenished health and beauty products to maintain fully merchandised shelves
- Conducted regular inventory scans to verify product counts and ensure accuracy

VOLUNTEERING

Technovation Girls

Oct. 2021 – Apr. 2025 (Seasonal)

Student Mentor

Remote

- Mentored a team of girls in designing and building an app to address a community problem

Orphan School for Children with Disabilities

Nov. 2020 – May 2021

Technology Volunteer

Turkmenbashi city, Turkmenistan

- Designed and led hands-on activities to help children build familiarity and comfort with technology

HONORS & AWARDS

Jerome J. Lohr College of Engineering Scholarship – 2026

Han & Bang Kim Student Employee Award – 2024, 2026

Top-Up Scholarship, American Councils for International Education – 2023 – 2025

Jackrabbit Guarantee Scholarship – 2023 – Present
